COMPACT SOLUTIONS TEAMS WITH TERADATA TO DELIVER INFORMATION SOLUTIONS FOR PROMINENT GERMAN AND TURKISH TELCOS

Compact Solutions Provides Parallel Application Design and Ab Initio Expertise

Chicago, IL – May 16, 2007 – Compact Solutions, innovator of high-performance solutions to industry’s toughest information integration problems, today announced it has completed a high profile information solution for one of Germany’s largest telecommunications companies, as well as a prominent telco in Turkey. Compact was teamed with Teradata, a division of NCR Corporation (NYSE: NCR), on these projects.

“We are very pleased to be able to partner with Teradata in developing these solutions in both countries,” said Pankaj Agrawal, Compact Solutions’ chief executive and technology officer. “Our two firms have great synergy between them: Teradata in the field of parallel hardware and database technology, and Compact in the area of parallel application design. Our collaboration results in best-of-breed solutions for our clients.”

Key to the selection of Compact for this project is the company’s world-class proficiency in a combination of mission-critical technologies. Compact Solutions is the world’s largest company specialized in creating strategic data solutions based on Ab Initio technology. In addition, Compact Solutions provides world class expertise in every aspect of large scale data integration. These skills include data architecture, data warehouse assessments, data warehouse design, ETL design and development, metadata repositories, data warehouse performance optimization, and platform migration. To help ensure its clients’ ongoing success, Compact has also developed a collaborative project approach and has created its Data Management Center of Excellence to serve as a resource beyond solution deployment

About Compact Solutions

Compact Solutions, LLC engineers and implements high-performance Enterprise Information Integration (EII) solutions designed to manage and integrate massive amounts of information to meet industries’ toughest challenges. The company’s finely honed expertise has yielded a streamlined approach that delivers solutions in unprecedented timeframes, contains client costs, and yields rapid, sustainable return on information. As part of its repertoire, Compact specializes in Ab Initio-based data

management solutions, allowing the company to develop deep skills in all aspects of Ab Initio technology, and earning it the trust and confidence of clients and the Ab Initio team alike. Headquartered in Chicago, with offices in London and Krakow, Compact Solutions' clients include some of the world's largest corporations in Manufacturing, Retail, Telecommunications and Financial Services.
